For: CREAM FILLER COMPOSITION AND METHOD FOR PREPARING

**ADDITIONAL EVIDENCE FOR PETITION FOR FILING WITHOUT INVENTOR'S
SIGNATURE UNDER 37 CFR 1.47(b)**

To the Director of Patents and Trademarks

Sir:

Further to the Petition for Filing Without Inventor's Signature Under 37 CFR 1.47(b) filed October 17, 2007 and Additional Evidence filed October 18, 2007, kindly consider the attached additional documentary evidence (Annexes 7 and 8) that the inventor was shown the application papers and was in possession of the application papers when he refused to sign the declaration. Annex 7 is a statement by an employee of the assignee, Tate & Lyle Europe NV, stating that he discussed the application with the inventor before the inventor signed a Power of Attorney and verified that he was in possession of and familiar with the application at that time.

He also indicates that there was no possibility of confusion as to which application was being addressed. Annex 8 is the Power of Attorney referred to in Annex 7.

CONCLUSION

Acceptance of the petition and application are requested.

Respectfully,

A handwritten signature in black ink, appearing to be 'JC Wray', written over a horizontal line.

Subject: ReUS10/585198 Statement

Dear Sir,

STATEMENT

Enclosed I send you a power of attorney which was signed a.o. by Mr. Tomas Landazuri, this with regard to the PCT application corresponding to US10/585198. It is clear that this document was signed for a patent application titled:

"Cream filler composition, method for preparing such a cream filler composition and food compositions comprising such a cream filler composition"

Thereby it is clear that Mr. Landazuri was well aware of the contents of this document. I discussed the application with him before signature of this power of attorney, therefore I know that he received the application.

In addition it is clear from database searches such as in Espacenet and in PatBase that there is only one patent filed in the name of Tomas Landazuri, and having the above mentioned title. Therefore there is no confusion possible.
